

Please amend the application as follows:

In the Specification

At page 22, line 8, please replace "The" with --the--.

At page 22, line 10, please replace "BaculoGold kit (kindly)" with --Baculogold™ kit
(Baculovirus Expression Vector System, including linearized baculovirus DNA; kindly--.

In the Claims

Please amend claims 1, 6, 7-13, 15-19, 24-35, 40, 43-46 as follows:

1. (Amended) A DNA construct capable of infecting a mammalian cell comprising at least one semi-purified or pure SV40 capsid protein; and a constituent selected from the group consisting of:
- an exogenous DNA, an exogenous DNA encoding an [a therapeutic] exogenous protein or peptide product, or encoding [therapeutic] RNA[, or itself a therapeutic product,];
 - a vector comprising an exogenous DNA, an exogenous DNA encoding an [a therapeutic] exogenous protein or peptide product, or encoding [therapeutic] RNA[, or itself a therapeutic product,];
 - an exogenous RNA or exogenous RNA encoding an [a therapeutic] exogenous protein or [of] peptide product [or itself a therapeutic product,];
 - a vector comprising an exogenous RNA or an exogenous RNA encoding an [a therapeutic] exogenous protein or peptide product or itself a protein or peptide [therapeutic] product;[,]
 - [therapeutic] exogenous protein or peptide product;[, and]
 - antisense RNA, ribozyme RNA or any RNA or DNA which inhibits or prevents the expression of undesired protein or proteins in said mammalian cell; [and] and further comprising operatively linked regulatory elements sufficient for [the expression and/or replication of said exogenous protein in a mammalian cell] one or more of the following:
- replication of said constituent;
 - expression of said constituent; and
